DETAILED ACTION

Allowable Subject Matter

- 1. Claims 10-42 are allowed.
- 2. The following is an examiner's statement of reasons for allowance:

The above mentioned claims are allowable over the prior art because the Cited Prior Art (CPA) fails to teach or render obvious the claimed limitations as recited in independent claims 10, 19, 26, and 37, and subsequent dependent claims.

The CPA does not teach or suggest an apparatus or method for providing a plurality of protection circuits connected between an address decoder and a plurality of registers, wherein the protection circuits block selection of a register after each resetting of the microprocessor, and releasing the protection circuit by a successive sending on the data bus of N passwords proper to the registers during the N first operations being effective only for subsequent operations for the selection until the next resetting of the microprocessor.

The present invention addresses the following drawbacks of prior art microprocessor systems:

1) the registers of a microprocessor are accidentally modified when a mistake, or malfunction occurs, usually during the initialization of the microprocessor.

Thus the invention provides a method for using protection circuits which block the selection of a register unless a password proper to the register is presented at the data bus of the microprocessor during the first operation of selection of the register. This

prevents the modification of the contents of the register by securing access to the registers.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Kaveh Abrishamkar whose telephone number is 571-272-3786. The examiner can normally be reached on Monday thru Friday 8-5.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ayaz Sheikh can be reached on 571-272-3795. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
